5.1 Plan Scope Management

- Plan Scope Management is to create a Scope Management document that documents how the project scope will be defined, validated and controlled.
- Benefits of having this document early will ensure the minimal conflict resolutions arising due to the project scope changes.
- Key benefit of this process is to provide guidance and direction on how the scope will be managed during the course of project.
- This plan helps to reduce the risk of project scope creep. Let us understand this in little detail for practical sense.
