<https://youtu.be/Yx0wTDDt9o> As good as it was at the time of release, this game has not aged well, I'd go with their newer products.. I DON'T KNOWu2665u2665u2665u2665u2665u2665.. This is one of the best video game franchises in history, just because it actually requires you to know things. As in, really know them. You can't just be all "oh, I like movies" and expect to get by in this game. You have to activate your brain and fork out hard facts about really tough Hollywood jive. Get this game if you want to both be intellectually stimulated and humiliated.. Still has all the cool stuff of the original game, still locked to 800x600. 1997, so no movies after then - only movies that are >20 years old :) at least a game can be played in under 10 minutes, though.. I love this game!! I remember playing it when it first came out and I am so excited to see that Steam has it.. I love this game!! I remember playing it when it first came out and I am so excited to see that Steam has it.. The interface is fine, the graphics are fine, its the questions that were terrible. I would have liked to see questions centered on classic films, or blockbusters, or important films. Instead you would have to know two out of three of the following: who was the star of a Doctor Pepper add from the mid seventies, what his line was, and another movie that he was in. Quite disappointed.. If you don't know You Don't Know Jack, you don't know jacks***.. Until recently (ie. Quiplash , and the party box 2), JackBox had a great formula and unique party-game style BUT there were terrible control options and they all felt like a bad port. I'd pass on

all of the older You Don't Know Jack titles and go for the more modern JackBox games that let people use mobile devices as the controllers. Bottom line: great ideas and fun here, but terrible interface, controls, and overall wasted potential.
